Maths Progression

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Counting |  |  |  |  |  |
| - count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number -count, read and write numbers to 100 in numerals; count in multiples of twos, fives and tens | - count in steps of 2, 3, and 5 from 0 , and in tens from any number, forward and backward | - count from 0 in multiples of 4, 8,50 and 100 ; find 10 or 100 more or less than a given number. | -count in multiples of 6, 7, 9, 25 and 1000 <br> - find 1000 more or less than a given number count backwards through zero to include negative numbers | - count forwards or backwards in steps of powers of 10 for anygiven number up to 1000000 <br> - interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero | -use negative numbers in context, and calculate intervals across zero |
| Place Value |  |  |  |  |  |
|  | - recognise the place value of each digit in a two-digit number -compare and order numbers from 0 up to 100 ; use $<,>$ and $=$ signs | - recognise the place value of each digit in a three-digit number -compare and order numbers up to 1000 | - recognise the place value of each digit in a four-digit number <br> -order and compare numbers beyond 1000 <br> - round any number to the nearest 10 , 100 or 1000 | - read, write, order and compare numbers up to 1000000 and determine the value of each digit -round any number up to 1000000 to the nearest $10,100,1000$, 10000 and 100000 | -read, write, order and compare numbers up to 10000000 and determine the value of each digit - round any whole number to a required degree of accuracy |
| Representing Number |  |  |  |  |  |
| -identify and represent numbers using objects and pictorial representations including the number line, \& use language of: equal to, more than, less than (fewer), most, least <br> -read and write numbers from 1 to 20 in numerals and words <br> -read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs | - identify, represent and estimate numbers using different representations, including the number line <br> -read and write numbers to at least 100 in numerals and in words | - identify, represent and estimate numbers using different representations -read and write numbers up to 1000 in numerals and in words | - identify, represent and estimate numbers using different representations -read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value | -read Roman numerals to 1000 (M) and recognise years written in Roman numerals <br> - recognise and use square numbers and cube numbers, and the notation for squared ( ${ }^{2}$ ) and cubed ( ${ }^{3}$ ) |  |
| Number Facts (+/-) |  |  |  |  |  |
| -given a number, identify one more and one less <br> - represent and use number bonds and related subtraction facts within 20 | - use place value and number facts to solve problems recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100 |  |  |  |  |
| Mental (+/-) |  |  |  |  |  |
| - add and subtract one-digit and twodigit numbers to 20 , includingzero | - add and subtract numbers using concrete objects, pictorial representations, and mentally, including: TU+U, TU+T, TU+TU and U+U+U <br> - show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot | -add and subtract numbers mentally, including: $\mathrm{HTU}+\mathrm{U}, \mathrm{HTU}+\mathrm{T}$ and $\mathrm{HTU}+\mathrm{H}$ |  | - add and subtract numbers mentally with increasingly large numbers | - perform mental calculations, including with mixed operations and large numbers |
| Written (+/-) |  |  |  |  |  |
|  |  | - add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction | - add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate | -add and subtract whole numbers with more than 4 digits, including using formal written methods |  |

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Problems (+/-) |  |  |  |  |  |
| - solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as 7 $=\square-9$. | - solve problems with addition and subtraction, using concrete, pictorial and abstract representations -recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems. | -estimate the answer to a calculation and use inverse operations to check answers <br> - solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction | -estimate and use inverse operations to check answers to a calculation - solve addition and subtraction twostep problems in contexts, deciding which operations and methods to use and why | -use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy - solve addition and subtraction multistep problems in contexts, deciding which operations and methods to use and why |  |
| Number Facts ( $\mathrm{x} / \div$ ) |  |  |  |  |  |
|  | - recall and use multiplication and division facts for the 2,5 and 10 multiplication tables, including recognising odd and even numbers | - - recall and use multiplication and division facts for the 3,4 and 8 multiplication tables | -recall multiplication and division facts for multiplication tables upto $12 \times 12$ | -identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers <br> -know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers -establish whether a number up to 100 is prime and recall prime numbers up to 19 | -identify common factors, common multiples and prime numbers |
| Mental ( $\mathbf{x} / \dot{\text { ) }}$ |  |  |  |  |  |
|  | - calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication $(\times)$, division $(\div)$ and equals (=) signs <br> - show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot | - write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental methods | - use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1 ; dividing by 1 ; multiplying together three numbers -recognise and use factor pairs and commutativity in mental calculations | -multiply and divide numbers mentally drawing upon known facts -multiply and divide whole numbers and those involving decimals by 10,100 and 1000 | - perform mental calculations, including with mixed operations and large numbers |
| Written (x/〒) |  |  |  |  |  |
|  |  | - Progress to formal written methods calculations as above | -multiply two-digit and three-digit numbers by a one-digit number using formal written layout | -multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two-digit numbers -divide numbers up to 4 digits by a onedigit number using the formal written method of short division and interpret remainders appropriately for the context | -multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication <br> -divide numbers up to 4 digits by a twodigit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context -divide numbers up to 4 digits by a twodigit number using the formal written method of short division where appropriate, interpreting remainders according to context |

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Problems ( $\mathrm{x} / \div$ ) |  |  |  |  |  |
| -solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher. | -solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher. | -solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which $n$ objects are connected to mobjects. | - solve problems involving multiplying and adding, including using the distributive law to multiply two-digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects | -solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes $\bullet$ solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign •solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates | - use their knowledge of the order of operations to carry out calculations involving the four operations - solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why -solve problems involving addition, subtraction, multiplication and division - use estimation to check answers to calculations and determine, in the context of a problem, an appropriate degree of accuracy |
| Recognising Fractions |  |  |  |  |  |
| - recognise, find and name a half as one of two equal parts of an object, shape or quantity •recognise, find and name a quarter as one of four equal parts of an object, shape or quantity | -recognise, find, name and write fractions $1 / 3,1 / 4,2 / 4$ and $3 / 4$ of a length, shape, set of objects or quantity | -count up and down in tenths; •recognise that tenths arise from dividing an object into 10 equal parts and in dividing onedigit numbers or quantities by 10 | -count up and down in hundredths; -recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten. | - recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number |  |
| Comparing Fractions |  |  |  |  |  |
|  |  | - compare and order unit fractions, and fractions with the same denominators - recognise and show, using diagrams, equivalent fractions with small denominators | - recognise and show, using diagrams, families of common equivalent fractions | - compare and order fractions whose denominators are all multiples of the same number <br> - identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths | -use common factors to simplify fractions <br> -use common multiples to express fractions in the same denomination -compare and order fractions, including fractions > 1 |
| Finding Fractions of Quantities |  |  |  |  |  |
|  |  | - recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators - recognise and use fractions as numbers: unit fractions and non- unit fractions with small denominators | -solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number |  |  |
| Fraction Calculations |  |  |  |  |  |
|  | - write simple fractions for example, $1 / 2$ of $6=3$ and recognise the equivalence of $2 / 4$ and $1 / 2$. | -add and subtract fractions with the same denominator within one whole [for example, $5 / 7+1 / 7=6 / 7$ ] | -add and subtract fractions with the same denominator | - add and subtract fractions with the same denominator and denominators that are multiples of the same number -multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams | -add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions -multiply simple pairs of proper fractions, writing the answer in its simplest form <br> -divide proper fractions by whole numbers |

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Decimals as Fractional Amounts |  |  |  |  |  |
|  |  |  | - recognise and write decimal equivalents of any number of tenths or hundredths <br> -recognise and write decimal equivalents to $1 / 4,1 / 2$ and $3 / 4$ - find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths | -read and write decimal numbers as fractions | - associate a fraction with division and calculate decimal fraction equivalents [for example, 0.375 ] for a simple fraction <br> - identify the value of each digit in numbers given to three decimal places |
| Ordering Decimals |  |  |  |  |  |
|  |  |  | - round decimals with one decimal place to the nearest whole number - compare numbers with the same number of decimal places up to two decimal places | - recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents <br> - round decimals with two decimal places to the nearest whole number and to one decimal place - read, write, order and compare numbers with up to three decimal places |  |
| Calculating with Decimals |  |  |  |  |  |
|  |  |  |  |  | -multiply and divide numbers by 10 , 100 and 1000 giving answers up to three decimal places <br> - multiply one-digit number with up to two decimal places by whole numbers -use written division methods in cases where the answer has up to two decimal places |
| Percentages |  |  |  |  |  |
|  |  |  |  | -recognise the per cent symbol (\%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal | - solve problems involving the calculation of percentages [for example, of measures, and such as $15 \%$ of 360] and the use of percentages for comparison |

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Fraction Problems |  |  |  |  |  |
|  |  | -solve problems using all fraction knowledge | -solve simple measure and money problems involving fractions and decimals to two decimal places | - solve problems involving number up to three decimal places <br> - solve problems which require knowing percentage and decimal equivalents of <br> $1 / 2,1 / 4,1 / 5,2 / 5,4 / 5$ and those fractions with a denominator of a multiple of 10 or 25 | -solve problems which require answers to be rounded to specified degrees of accuracy <br> -recall and use equivalences between simple fractions, decimals and percentages, including in different contexts. |
| Ratio \& Proportion |  |  |  |  |  |
|  |  |  |  |  | - solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts <br> - solve problems involving similar shapes where the scale factor is known or can be found <br> - solve problems involving unequal sharing and grouping using knowledge of fractions and multiples. |
| Algebra |  |  |  |  |  |
|  |  |  |  |  | -use simple formulae <br> - generate and describe linear number <br> sequences <br> express missing number problems <br> algebraically <br> - find pairs of numbers that satisfy an <br> equation with two unknowns <br> -enumerate possibilities of <br> combinations of two variables. |
| Measures |  |  |  |  |  |
| - compare, describe and solve practical problems for: length/height, weight/mass, capacity/volume \& time -measure and begin to record length/height, weight/mass, capacity/volume \& time | -choose and use appropriate standard units to estimate and measure length $/$ height ( $\mathrm{m} / \mathrm{cm}$ ); mass (kg/g); temperature ( ${ }^{\circ} \mathrm{C}$ ); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels <br> -compare and order lengths, mass, volume/capacity and record the results using $\gg<$ and $=$ | -measure, compare, add and subtract: lengths ( $\mathrm{m} / \mathrm{cm} / \mathrm{mm}$ ); mass ( $\mathrm{kg} / \mathrm{g}$ ); volume/capacity (1/ml) | - Convert between different units of measure <br> estimate, compare and calculate different measures, including money in pounds and pence | -convert between different units of metric measure <br> -understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints <br> -estimate volume and capacity | - solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate -use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places convert between miles and kilometres |

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Properties of 2-D Shapes |  |  |  |  |  |
|  | -identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line. -compare and sort common 2-D and 3-D shapes and everyday objects | -draw 2-D shapes | -compare and classify geometric shapes, including quadrilaterals and triangles, based on properties and sizes •identify lines of symmetry in 2-D shapes presented in different orientations -complete a simple symmetric figure with respect to a specific line of symmetry. | - use the properties of rectangles to deduce related facts and find missing lengths and angles edistinguish between regular and irregular polygons based on reasoning about equal sides and angles. | -draw 2-D shapes using given dimensions and angles compare and classify geometric shapes based on their properties and sizes |
| Properties of 3-D Shapes |  |  |  |  |  |
|  | -identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces <br> -identify 2-D shapes on the surface of 3-D shapes. <br> Compare and sort common 2-D and 3-D shapes and everyday objects. | -make 3-D shapes using modelling materials <br> 7ecognize 3-D shapes in different orientations and describe them |  | -identify 3-D shapes, including cubes and other cuboids, from 2-D representations | - recognise, describe and build simple 3-D shapes, including making nets <br> -find unknown angles in any triangles, quadrilaterals, and regular polygons |
| Angles |  |  |  |  |  |
|  |  | -recognise angles as a property of shape or a description of a turn - identify right angles, recognise that two right angles make a half- turn, three make three quarters of a turn and four a complete turn <br> -identify whether angles are greater or less than right angle | -identify acute and obtuse angles and compare and order angles up to two right angles by size | -know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles -draw given angles, and measure them in degrees ( ${ }^{\circ}$ ) <br> -identify angles at a point and one whole turn (total $360^{\circ}$ ); at a point on a straight line and $1 / 2$ a turn (total $180^{\circ}$ ) - identify other multiples of $90^{\circ}$ | - recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles |
| Position and Direction |  |  |  |  |  |
| -describe position, direction and movement, including whole, half, quarter and three-quarter turns. | - order and arrange combinations of mathematical objects in patterns and sequences. <br> -use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and $3 / 4$ turns |  | -describe positions on a 2-D grid as coordinates in the first quadrant -describe movements between positions as translations of a given unit to the left/right and up/down - plot specified points and draw sides to complete a given polygon | -identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed | - describe positions on the full coordinate grid (all four quadrants) -draw and translate simple shapes on the coordinate plane, and reflect them in the axes. |

## Holy Family Catholic Primary school, Cronton Maths Progression

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Interpreting Data |  |  |  |  |  |
|  | - interpret and construct simple pictograms, tally charts, block diagrams and simple tables | - interpret and present data using bar charts, pictograms and tables | -interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and timegraphs | -complete, read and interpret information in tables, including timetables | - interpret and construct pie charts and line graphs calculate and interpret the mean as an average |
| Extract Info from Data |  |  |  |  |  |
|  | -ask and answer simple questions by counting the number ofobjects in each category and sorting the categories by quantity <br> - ask and answer questions about totalling and comparing categorical data | - solve one-step and two-step questions [for example, 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables | - solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and othergraphs | -solve comparison, sum and difference problems using information presented in a line graph | - use pie charts and line graphs to solve problems |
|  |  |  |  |  |  |
