

Artists

Hundertwasser was a visual artist (painter) and architect. He disliked how most buildings had straight lines and were angled. He felt that buildings should represent those who lived inside them.

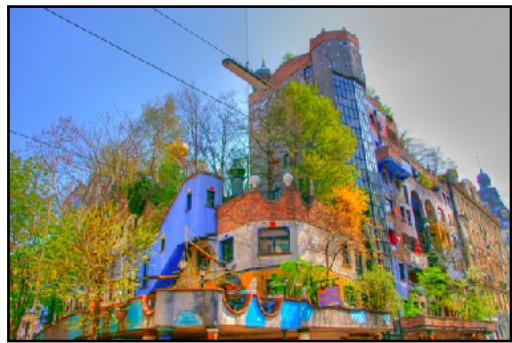

His building designs used nature as inspiration and often tried to fit round nature rather than bending nature to fit the buildings. A lot of his buildings had nature in them, including beautiful rooftop gardens.

Key Vocabulary

Architecture	The science & art of designing buildings including how they look and function.
Architect	A person who practises architecture.
