

Holy Family Catholic Primary School Cronton

Year 1: Science Summer Term 2

What I should already know:

- * I know the names of some common animals.
- * I know that animals need food and water to survive.
- * I know that some animals are pets and that some animals are not.

Mammals			
			
human	mouse	dog	cow
Birds			
			
penguin	chicken	flamingo	robin
Fish			
			
goldfish	tuna	shark	eel
Reptiles			
			
snake	tortoise	lizard	alligator
Amphibians			
			
frog	toad	newt	salamander

Fact file

What I need to know about animals

		
Carnivore - an animal that only eats meat.	Herbivore - an animal that only eats plants.	Omnivore - a person or animal that eats both plants and animals.

Unit 2: Our Changing World: Seasonal changes & Plants **Theme:** Animals, including humans

What I will know by the end of the unit:

- I can identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals.

- I can identify and name a variety of common animals that are carnivores, herbivores and omnivores.

- I can describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals including pets).

Key Scientist-George Mottershead

(12 June 1894 – 5 May 1978) was the founder of Chester Zoo.

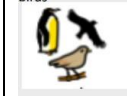

Vocabulary

Amphibians

They can live on land and water. For example, frogs and toads.

Birds

They have wings and beaks. For example, ducks, chickens and pigeons.

Fish

They have fins and scales and breathe underwater using gills. For example, salmon, cod and tuna.

Mammals

They can be pets such as dogs and cats. Farm animals such as cows and sheep. Wild animals such as foxes, lions and hedgehogs.

Reptiles

They cannot breathe underwater. For example snakes and lizards.

Names of Common Animals
