

Holy Family Catholic Primary School Cronton

<p>Year 2: Science Spring Term 2</p> <p>What I should already know:</p> <ul style="list-style-type: none"> *Plants grow to different heights and sizes. * The names of some common garden plants: <div style="display: flex; flex-wrap: wrap; justify-content: space-around;"> <div style="text-align: center;"> Dandelion</div> <div style="text-align: center;"> Daisy</div> <div style="text-align: center;"> Lily</div> <div style="text-align: center;"> Bluebell</div> <div style="text-align: center;"> Daffodil</div> <div style="text-align: center;"> Pansy</div> <div style="text-align: center;"> Horse chestnut</div> <div style="text-align: center;"> Cherry blossom</div> <div style="text-align: center;"> Geranium</div> </div>	<p>Unit: 2 The Apprentice Garden & Our Changing World Theme: Plants</p> <p>What I will know by the end of the unit:</p> <ul style="list-style-type: none"> * I will be able to observe and describe how seeds and bulbs grow into mature plants; * I will find out and describe how plants need water, light and a suitable temperature to grow and stay healthy. <p>Focus Scientist Chris Packham (born 4 May 1961) is an English naturalist, nature photographer, television presenter and author, best known for his television work including the CBBC children's nature series The Really Wild Show from 1986 to 1995. He has also presented the BBC nature series.</p> <div style="text-align: right;"></div>
<p>Fact file</p> <div style="display: flex; align-items: flex-start;"> <div style="margin-right: 10px;">  </div> <div> <p>Plants are living things and require things to grow. Plants require things such as water, warmth, nutrients from soil and light to grow. If they do not have one or more of these things, they may stop growing.</p> </div> </div>	<p>Plants can:</p> <ul style="list-style-type: none"> * move * grow * react to their surroundings (sense) * absorb nutrients * reproduce <div style="text-align: center;">  </div>
Vocabulary	
Germination	This is when seed starts to grow.
	
Nutrition	Food and drink that help plants and animals to grow.
	
Seed dispersal	Moving or transporting seeds away from a plant.
	
Shoot	A young or new branch on a plant.
	
Sprout	The shoot of a plant
	
Sunlight	Light given off by the sun
	
Temperature	How hot or cold it is
	
Water	Liquid to help feed plants and living things
